SMITH HATCHERY

Phone 130-5

Box 82

TISDALE, Sask.

**DEAR FELLOW POULTRYMEN:**

The hatching season is again close at hand, and we take this opportunity to thank our many customers for their chick business in past years. We appreciate the confidence which our customers have placed in us, and it is our sole aim to retain this good reputation.

In this catalogue we have tried to explain exactly what we have done to produce top-quality chicks, and why you should give our chicks a trial. We want you to read closely the details concerning our breeding flocks, our equipment, our methods of doing business, and our guarantees.

If you are in Tisdale at any time we will be glad to have you visit our hatchery and see how chicks are hatched by the thousands in our modern all-electric Petersime Incubators.

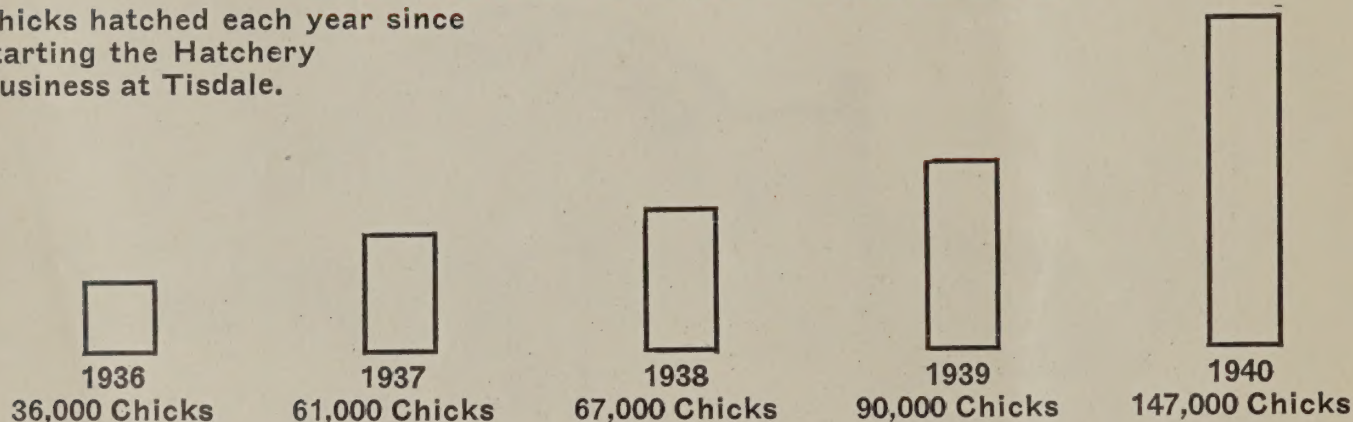

Wishing you a Happy and Prosperous 1941.

Yours sincerely,

ANDREW SMITH.

FIVE YEARS STEADY PROGRESS

Chicks hatched each year since
starting the Hatchery
Business at Tisdale.

Every year more and more people buy SMITH CHICKS—there must be a reason.

So great has been the demand for our chicks that we are installing another large all-electric Petersime Incubator so we will be able to fill all orders right on the date ordered.

Buy SMITH CHICKS in 1941 and be another SATISFIED CUSTOMER

THE BEST WAY TO GET BUSINESS IS TO DESERVE IT**A Few Letters from Our Customers**

The shipment of chicks arrived safely and up to date are all still alive. Am very pleased with same and enclosed please find \$1.65 balance due you.
Carragana, Sask., June 4, 1940.
—MRS. G. C. L.

Chicks arrived in good shape, every one strong and active; have not lost one so far. I must say they are the best bunch of chicks I ever got and I have been buying chicks for years. Could you let me have another hundred around June 15th.
Vermilion, Alta., May 26, 1940.
—MRS. W. T.

I have received the chickens I had ordered some time ago. I am very well satisfied with your service. The chickens reached me in good condition and have been doing just fine until now and hope it will continue. I shall continue buying chicks from you as long as I am well served.
Arborfield, Sask., May 16, 1940.
—MRS. H. P.

Enclosed find \$5.75 for R. I. Red chicks. I got chicks from you last June and had good results with them.
Archerwill, Sask., June 11, 1940.
—H. E. D.

We received the chickens and all are fine. Find enclosed five dollars and fifty cents (\$5.50) for payment on chicks.
Armley, Sask., May 19th, 1940.
—J. H.

Please find enclosed money order for twenty-one dollars in payment of chicks ordered. The chicks I got from you last year did very well and I raised 93 pullets out of the 196 I got and hardly lost one out of the whole lot.
Codette, Sask., April 26, 1940.
—MRS. A. J. J.

Just a line to say that the chicks arrived safely and we sure appreciate you sending such big started chicks. They are all living and doing well. We will send again to your hatchery.—J. R.
LeRoy, Sask., April 17th, 1940.

Please find enclosed money order for six dollars and ninety cents, and I would like to say that I am well satisfied with the chicks I got last year. I had 25 pullets and got from 18 to 22 eggs every day.
Henribourg, Sask., April 22nd, 1940.
—MRS. G. R.

SIX LEADING BREEDS

BARRED ROCKS—Our Largest Selling Breed.

The cockerels make very fine dressed birds. The pullets are hard to beat as layers and sell very well on the market when it comes time to dispose of them. Many of our flocks are headed with Pedigreed and R. O. P. Cockerels.

WHITE LEGHORNS—The Egg Machine.

They feather quickly, develop early and lay a large number of large uniform white eggs. We have some outstanding flocks supplying us with hatching eggs. Many of them are mated with Pedigreed and R. O. P. Cockerels. We have increased our supply of Leghorns so will be able to fill all orders promptly.

NEW HAMPSHIRE—The Ideal Breed for the North.

They feather and develop very rapidly and easily withstand our cold winters. They are good meat birds, heavy producers of large eggs and possess an abundance of vigor. They are slightly larger than Barred Rocks, plump thick-set body, and bayish red in color. They were originated in the state of New Hampshire over 30 years ago and have become one of the leading breeds in many parts of the Eastern States, Ontario, Manitoba, and British Columbia. Our flocks are all Christie strain which is the leading flock in New Hampshire. All who have tried New Hampshires are delighted with their fast growth and heavy winter egg production. We have increased our supply so can fill all orders promptly. Chick prices of this breed have been reduced since last year due to their high hatchability.

RHODE ISLAND REDS.

The Carrot River Valley has outstanding flocks of this breed, and it is because of this extra high quality of our R. I. Reds that they are so popular here in the North. Quite a percentage of our Flocks are headed with R. O. P. cockerels. If you want good meat birds with high egg production and good egg size you can't go wrong in ordering R. I. Reds.

WHITE WYANDOTTES.

The beautiful white bird, very popular for both meat and eggs. The white feathers make dressing much easier and with the plump thick-set body they yield a very attractive dressed carcass. The demand for this breed is very heavy, so order early.

LIGHT SUSSEX.

The most popular breed in England and becoming very prominent in Canada. They are wonderful meat birds and also good layers. They are very pretty birds, being white with some black around the neck, in wings and in the tail. They have white skin, well fleshed breast, and make very attractive dressed birds. They make quick growth and are very hardy.

All Hatching Eggs are bought from Saskatchewan Approved Flocks—half of your chick money is paid to them for their hatching eggs.

Buy SMITH CHICKS and support HOME INDUSTRY.

A free bulletin on "BROODING CHICKS" sent with every chick order. We will again have the services of Mrs. Koop, chick sexer, and can give the best of service on sexed chicks.

Reasons Why SMITH Chicks Are Better

1. All eggs set are from Saskatchewan Approved and Pullorum Tested Flocks which have been carefully bred for high egg production.
2. We visit every flock before we contract to buy eggs from them.
3. All eggs set must average 24 oz. per doz.
4. Petersime chicks are noted for their vigor and vitality, no weak or undersized chicks are ever shipped.
5. We examine every chick carefully before it is shipped and guarantee 100 per cent live and peppy chicks on arrival.
6. Chicks are gradually hardened before they are shipped. We have raised poultry for many years and will be glad to help you with your poultry problems.
7. Chicks will be shipped on date promised without fail. You will be notified in advance as to the exact day they will be shipped—no extra trips to town.
8. Money promptly returned if we can't supply chicks on the date desired.
9. Our business is of moderate size so we are able to give every order personal attention. We are at your service 24 hours a day.
10. Our chicks have long fluffy down and every one is examined to make certain that it has a well healed navel. This indicates that they have been hatched under perfect incubator conditions and that they will be easy to raise. You will find that our chicks are not excessively large, soft and sluggish, but are moderate size, firm, and full of pep and activity with large sturdy shanks.
11. Your chicks are given a final careful sorting and counted out a few minutes before your train leaves. They are delivered to the train in our own car, covered according to weather, and handed into the express car by our own men. They are never allowed to wait around the station on trucks and be chilled.
12. We supply you with the very best quality of Approved Chicks available, none are picked out and sold at a higher price. Only the one quality of Approved Chicks are sold—the top quality.

Jamesway Oil Burning Brooder Stove

"THE BROODER WITHOUT AN EQUAL"

NO OTHER BROODER GIVES YOU ALL THESE FEATURES

1. It maintains a steady temperature under the hover, day and night, regardless of any change in the weather.
2. Accurate thermostat control by automatic oil-flow regulator; no wick to plug up or smoke.
3. It won't go out. It has fuel capacity for four days or more.
4. Fuel: No. 1 Furnace Oil, Kerosene, 38-40 Distillate. (Not Diesel Fuel.)
5. Cost to Operate—not any more than coal.
6. When the sun comes through the windows in the middle of the day, the stove cuts 'way down; and avoids overheating the chicks. No pasting up behind.
7. You don't have to look at it during the night. No matter how the weather changes, the temperature will be the same; no chilling or diarrhoea.
8. The JAMESWAY OIL BROODER can be set at, and will maintain, any desired temperature. This can be reduced, from time-to-time, as the chicks grow.
9. The fumes and foul air are all removed from the room.
10. A high wind has no effect on this stove, due to the action of the automatic damper and revolving smoke cap.
11. No danger of setting fire to the litter or buildings. No ashes to remove.
12. When not in use brooding Baby Chicks, the Double Duty Jamesway Oil Burning Brooder can be used to advantage brooding Baby Pigs, or placed in a circulator (temperlator) to heat the hen house or hog house and keep it dry. Write for full particulars.
